

Gemeinsames Kolloquium Interdisciplinary Lecture Series Sommersemester 2019

<p>11.04.2019, 17 Uhr c.t., HNC 30 Prof. Dr. Kari Rissanen Dept. of Chemistry, University of Jyväskylä, Finland</p>	<p><i>Haloniumsupramolecular Chemistry, New Molecular Capsules</i></p>
<p>09.05.2019, 17 Uhr, c.t., HNC 30 Prof. Dr. Kenneth N. Raymond Dept. of Chemistry, University of California, Berkeley, USA</p>	<p>In Cooperation with the GRK-2376 Confinement-Controlled Chemistry <i>Lanthanide Coordination Chemistry: from Basics to Business</i></p>
<p>06.06.2019, 17 Uhr, c.t., HNC 30 Prof. Dr. Malte Behrens UA Ruhr Professor for Materials Chemistry of Catalysis at the University of Duisburg/Essen and the Ruhr-University Bochum</p>	<p>Inaugural Lecture <i>Chemistry of Solid Catalysts: New Insight from "old" Materials</i></p>
<p>27.06.2019, 17 Uhr, c.t., HNC 30 Prof. Dr. Kristina Tschulik 'Electrochemistry and Nanoscale Materials', Analytical Chemistry II, RUB Prof. Dr. Nicolas Plumeré 'Molecular Nanostructures', Center for Electrochemical Sciences, RUB</p>	<p>Inaugural Lectures <i>Nanoelectrochemistry – unraveling intrinsic material (re-)activities by single nanoparticle studies</i> tba</p>
<p>04.07.2019, 17 Uhr, c.t., HNC 30 Prof. Dr. Siegfried R. Waldvogel Organic Chemistry, Johannes Gutenberg University Mainz, Germany</p>	<p><i>Electrifying Organic Synthesis</i></p>

Gäste sind herzlich willkommen – Guests are most welcome!
